

Jay Tarot Metaphysics

JayTarot and Metaphysics

First public Tarot reading was started at a little Tarot Café called Frosty, located at Sg Wang Plaza(6th floor) which operated for a year in 2004. Apart from individual personal readings, Tarot Divination has become a significant activity for most corporate offices and organizations (examples: annual dinner, prom nite, family/members' day, launching and etc)

Tarot card prediction does not involve any religious practice, in another word; people from all races, age group or any professions are eligible for a reading. Our clients vary from the age of 4years to 69years, both local and foreigners and a number of domestic pets.

Generally, Tarot cards predict an issue within a timeline of 3 to 6 months. A longer timeline can be read upon request or base on a specific time given. Categories of questions include relationship, career, business, health, study, travel, life-path and karma.
